

LIFE SAVING

During an emergency, nothing can be more important than knowing what to do in order to save someone's life. Hopefully you will never have to use this information, but life saving techniques are important skills for you to have. This emblem will help you to be better prepared in a life threatening situation.

REQUIREMENT #1 - Lifesaving

The news on television and in the newspapers is always full of stories that involve lifesaving situations. Some of them have happy endings, while others end in tragedy.

Search your newspaper and/or magazines and find at least three stories that involved a lifesaving experience. Share them with your Adventure Corps section and discuss what happened and if the situation could have been avoided.

Have you ever been involved in a lifesaving situation? What was it like? How did you feel? If you have, share your experience with your section.

REQUIREMENT #2 - Lifesaving Interview

There are many people who lay their life on the line each day in order to save the life of someone else: policemen, firemen, paramedics, lifeguards, etc.

Interview one person who is involved in a profession that exposes him/her to life saving situations and complete the following information:

Name of person interviewed: _____

Position: _____

What he/she does: _____

What did you learn? _____

REQUIREMENT #3 - CPR Course

With the assistance of your Adventure Corps leader, complete a certified CPR (cardiopulmonary resuscitation) course. These courses are usually available for a minimum cost through your local American Red Cross office.

REQUIREMENT #4 - God's Lifesaving Plan

Read in the Bible Romans 6:23. What does this verse say?

What is sin?

What is eternal life?

Now read John 3:16. What does this verse say?

Discuss with your leader how these two verses fit together and how they demonstrate God's life saving plan. How does God's life saving plan apply to you and your friends?
